Getting to
Yas Marina
and around
Yas Island

Arrival

Access by sea and clearance

As part of your race week berth package you are eligible to berth at Yas Marina from Monday 2nd December to Monday 9th December.

Due to the popularity of this international motor sports event, there will be high levels of traffic and security both getting to and whilst on the island. We advise you to plan your arrival and make the most of the full week of berthing, allowing for plenty of time to get security clearances and also set up for the week ahead.

The safe operation of a vessel is the sole responsibility of the vessel operator. Vessel operators are advised to review all available charts and pilot information necessary for the safe passage of the vessel. The information provided below is to be used simply as reference and must not be relied upon for navigation purposes. All information should be verified by the vessel's master prior to making the transit from the Arabian Gulf to Yas Marina.

Directions

1. The most direct route from the Arabian Gulf to Yas Marina is to enter Abu Dhabi's inner-coastal waters at Mina Zayed and transit south-east through the Umm Al Nar Channel towards Yas Island.
2. Prior to entering the channel from Mina Zayed, please contact Port Control on VHF channel 67 for clearance.
3. Continue along that same course for approximately 6.5 n.m., and enter the Yas Channel at the intersection of Balrimayd Island and Al Sammaliyah Island. When entering Yas Channel, please respect the cardinal markers.
4. Continue within the channel bearing south-southeast until passing the Aldar HQ building (large round coin-shaped building) on your starboard side.
5. Continue past Al Raha Beach and Al Bandar residential communities (three large residential towers that look like steps into the water), respecting the no-wake zone.
6. You will then see the visitor berth of Yas Marina ahead of you to the left. Call the Yas Marina office on VHF Channel 8 and notify them of your arrival. "Once you get the OK from Yas Marina, instructions will be provided to proceed to the visitor's berth for authorities' clearance procedures.
7. Continue past this and turn left at the marina entrance. Please ensure that the captain of the vessel navigates within the channel buoy especially at Yas Channel buoy number one.

The distance from Mina Zayed to Yas Marina is approximately 14.85 n.m. requiring 1.5-2.5 hours to transit depending on the vessel.

The channel from Mina Zayed to Umm Al Nar is approximately 150m wide and dredged to -11m ACD. The channel from Umm Al Nar to Yas Marina is dredged to -6m ACD.
